gE.CO Living ab

What is gE.CO?

- An exchange platform
- creates tools for the generative commons

What are these tools?

- The gE.CO toolkit
- Digital tools
- The map & database

Providing case studies and legal frameworks for commons initiatives.

The Legal toolkit

Tool that provides methodology and phases for the reactivation of empty buildings through temporary uses.

The Temporary Reuse toolkit

The Participation toolkit

Promoting and facilitating community building through collaboration and equal participation.

Tools for envisioning, planning and governing the commoning processes

The Governance toolkit

The database

gecotoolbox.io

Geco Toolbox

www.gecotoolbox.io

What is it?

- collection of software services
- Open source - developed by communities for communities

It is meant for whom?

- for use by urban commons communities and organizations

NextCloud Drive

A document collaboration platform

[View docs →](#) [Play video →](#) [Open service →](#)

CryptPad

A real-time collaboration platform

[View docs →](#) [Open service →](#)

Mattermost

A communication and chat platform

[View docs →](#) [Open service →](#)

LimeSurvey

A form and survey platform

[View docs →](#) [Open service →](#)

NextCloud Calendar

A digital sharable calendar

[View docs →](#) [Open service →](#)

NextCloud Forms

A form and survey platform

the gE.CO map

www.geco.firstlife.org

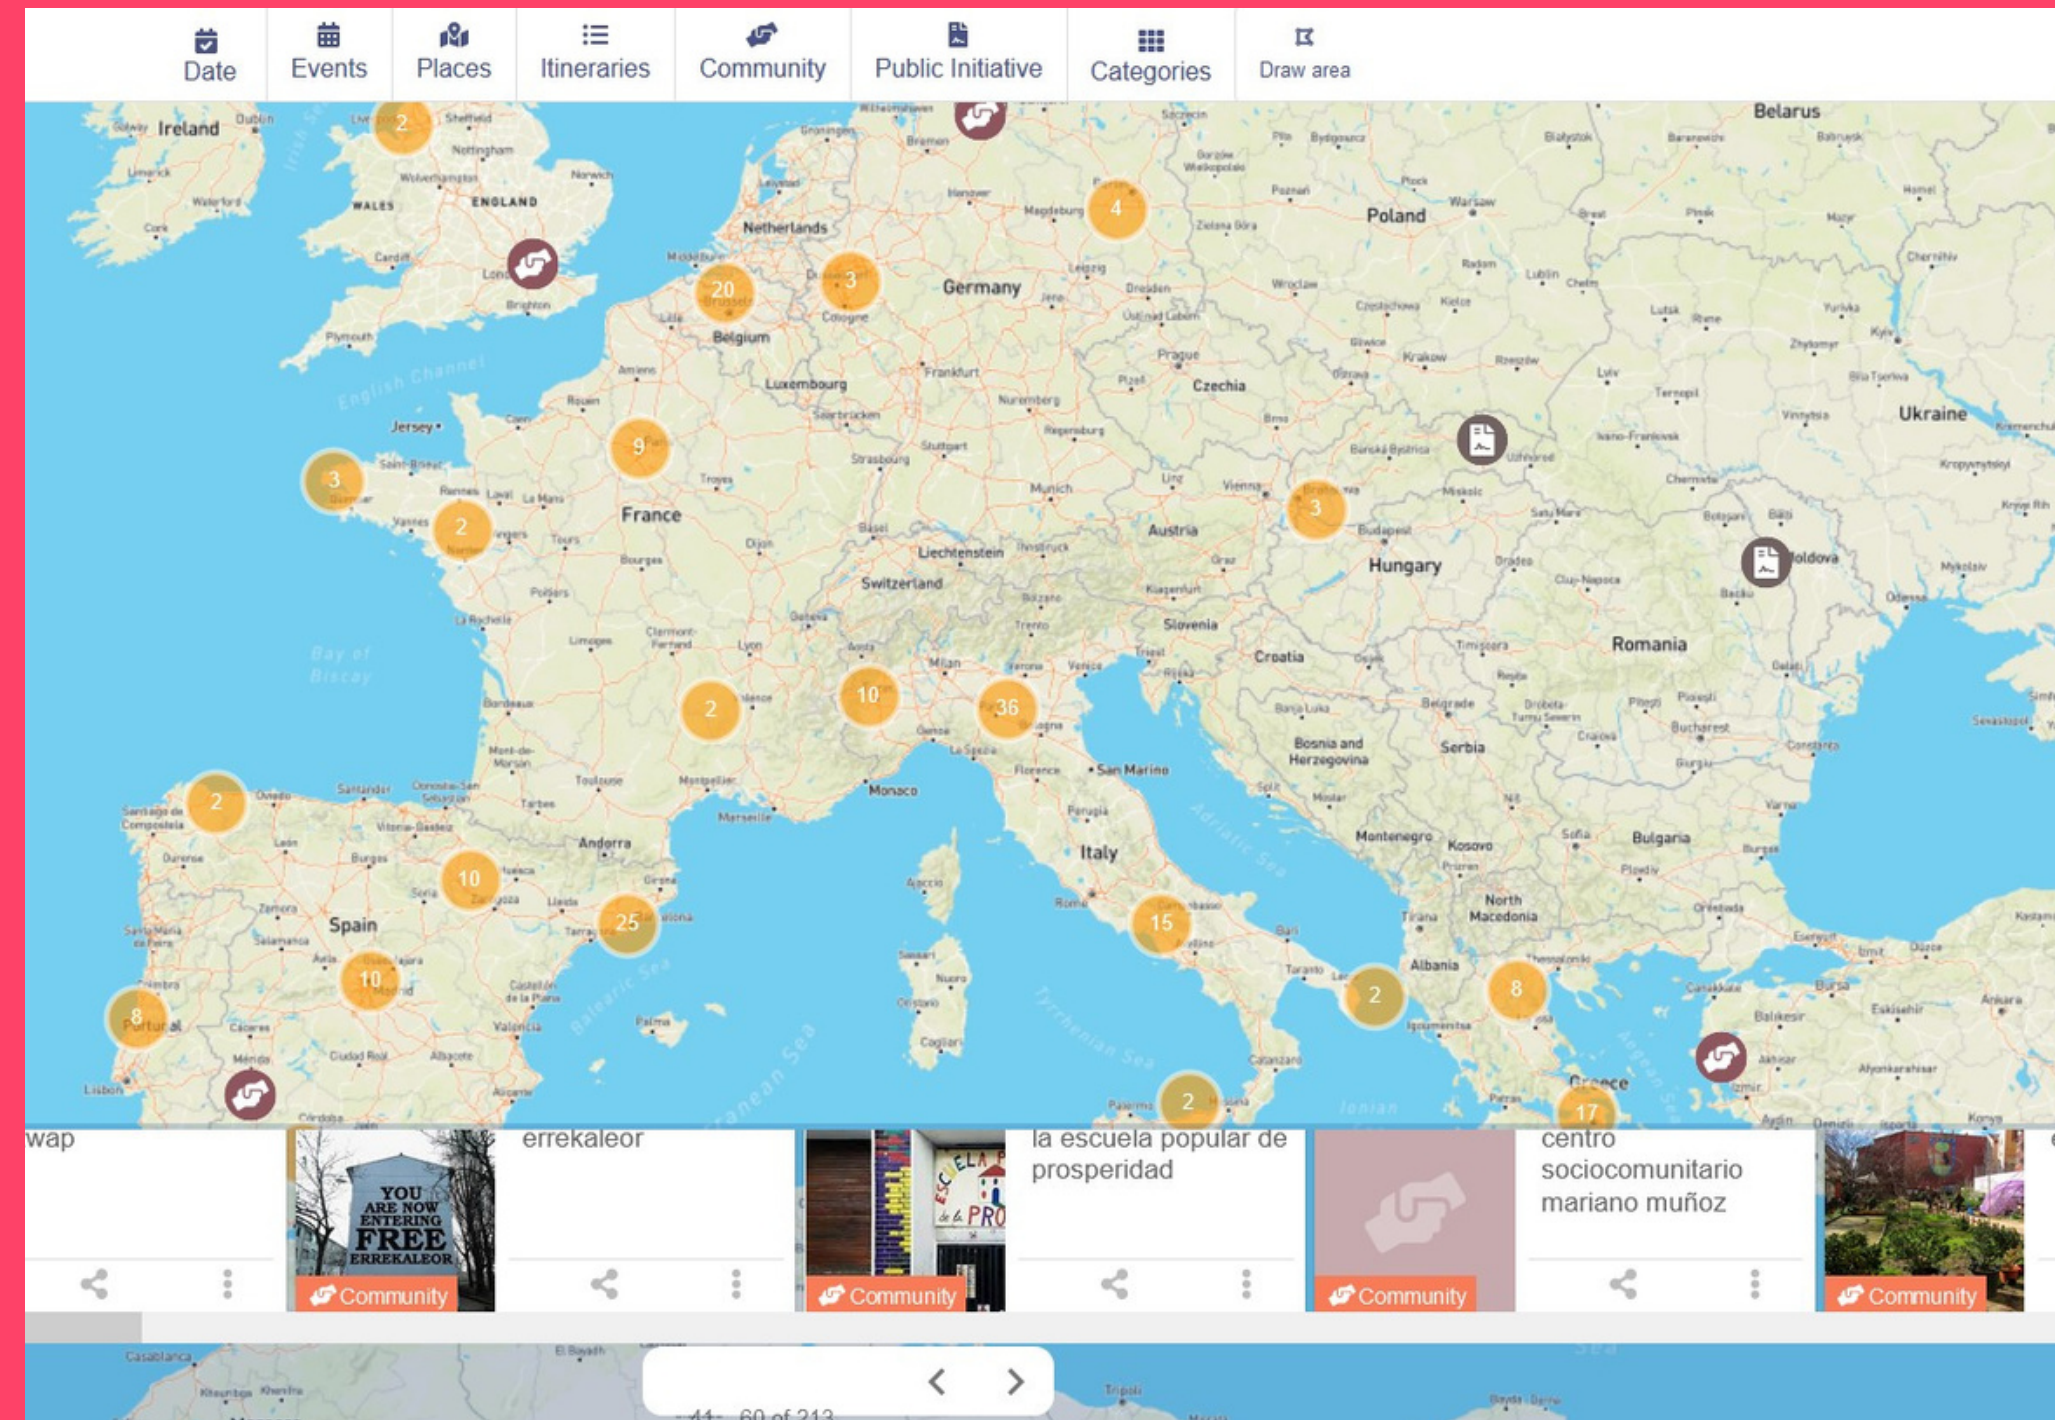

What is it?

- mapping generative commons initiatives from around europe

What is the aim of it?

- Build awareness
- Make initiatives accessible
- Provide a pan-European insight

- Build a digital platform for collaboration between citizens and municipalities

the gE.CO database

- Contains already mapped groups of experiences
- categorized as "community of citizens" and "public initiatives"
- Essential information regarding initiatives
- contains more than 200 generative commons from around Europe spanning 16 countries and 100 cities.

New Tools to be released soon

introducing

THE PARTICIPATION
TOOLKIT

One of the many tools soon to be launched by

generative-commons.eu

The participation toolkit

"promoting and facilitating community building through collaboration and equal participation.."

- Result of a bottom up research
- Brings people actively involved in citizencommunities to the foreground
- Involves digital games that promotes collective reflection and community building
- increases visibility of under-represented communities.

introducing

THE TEMPORARY USE
TOOLKIT

One of the many tools soon to be launched by

generative-commons.eu

The Temporary Use Toolkit

"A tool that provides methodology and phases for the reactivation of empty buildings through temporary uses."

What is the aim of TUT ?

- Establish a methodology that creates processes necessary for the temporary reuse of abandoned buildings.
- Empower the commons.
- allow the analysis of their viability and implementation.
- Provide an existing case analysis tool

introducing

THE GOVERNANCE
TOOLKIT

One of the many tools soon to be launched by

generative-commons.eu

The Governance Toolkit

"Tools for envisioning, planning and governing the commoning processes."

- invites local municipalities and other institutional actors of the Brussels Capital
- reflects around a more generative, plural and horizontal form of governance
- recognises the initiatives and their contributions

What is the aim of it ?

- meant to inspire further institutional experimentation

introducing

THE LEGAL TOOLKIT

One of the many tools soon to be launched by

generative-commons.eu
