

Stop poisoning Ukraine! Coalition for the clean air

Project of **Arnika** (CZ) and **Ecoaction** (UA) financed
by the Transition Promotion Programme
of the Czech Republic

TRANSITION

Stop poisoning Ukraine!

Coalition for the clean air

Kharkiv

Dnipro

Krivyi Rih

Zaporizhia

Mariupol

Why such a project is needed?

- **1999: Ratification of the Aarhus Convention on environmental democracy**
- **2017: Association agreement with the EU entered into force**
Environmental obligations (EU Directives):
Environmental Impact Assessment,
Industrial Emissions (including PRTR)

New member states of the EU can contribute with their transition experience.

Building the coalition & its capacities

- Information exchange
- Workshops
- Study tour to CZ

International Conference in Ostrava

An aerial photograph of Ostrava, Czech Republic, showing a dense urban area with a mix of residential buildings and industrial structures. In the foreground, there are several multi-story apartment buildings with dark roofs. In the middle ground, a prominent church with two tall, ornate spires is visible. In the background, a large industrial complex with numerous smokestacks and buildings is visible, partially obscured by a light haze.

- **8 countries including Ukraine**
- **Industrial air pollution in Europe and former Soviet Union**
- **Ostrava Declaration**

New information

**Comparative
analysis of the
EU-UA air
pollution
regulation**

**Case study
of ArcelorMittal
steelworks**

**Interpretation
of the PRTR data**

Analyses of the impact of air pollution on the environment
